Plant Manager  
Seminole P&DC

Re: Town Hall Meeting

Mike:

While I was at the District Union Leadership meeting today with the APWU and Mail Handler Presidents, along with the Suncoast District EAS Officials, I was informed verbally, as well as in an e-mail from a concerned APWU member, that there was sort Town Hall Meeting scheduled in your Plant today. The below is what I received in my e-mail:

*“Good morning! FYI there is a short-notice town hall meeting at the Seminole PDC tonight. There was a paper taped to the time clocks saying the meetings would be at 1030 am, and 6:30 pm and 8 pm. I asked why there was no meeting for Tour 1. I and others start at 8:30 pm), and every supervisor I asked had no idea there was even a meeting.”*

This was the first I have heard about this meeting. As you know, I have requested from you and your staff that whenever there was a scheduled Town Hall Meeting that I would like to be notified so that we could attend. I am wondering why I was not notified? What is the meeting about? Anything affecting the bargaining-unit employees that I represent? What about the employees that will not be there, is there an additional meeting scheduled with them?

Please send me a copy of what the meeting will entail as anything affecting the APWU Crafts within your installation is a concern to the APWU. I look forward to your soon response.

Thank you,

President
