Re: Neglect of the Hazmat Designated Area

Mike:

Approximately 18 months ago there was an issue that was brought to my attention regarding the Hazmat Designated Area in the Seminole P&DC. When this issue originally surfaced, I addressed the APWU's concerns to the MDO James Barone, and directly to you. After many inquiries, letters, and correspondence to you, and the Suncoast Safety Specialist, it was taken care of.

I was notified this weekend that the Hazmat Area, which I am assuming is still next to the Operation 326-Cells 321 & 327, is back to the same conditions as was the case in 2015. Due to the fact that this has once again surfaced, in good faith, I am asking your assistance in rectifying this issue right away so that I do not have to pursue this through the Suncoast District Safety office once again. Unfortunately, if this is not remedied, this matter will be appealed to Step 2 under the Safety and Health Article 14 of the Collective Bargaining Agreement. If you have any additional questions and/or concerns please contact me.

Thank you in advance,

A handwritten signature in black ink that reads "Joe Paul".
