Re: Maintenance Employee Lockers

Tom:

Per our conversation earlier today regarding the Maintenance Craft employee's lockers, I want to reaffirm the results of our discussion. Your staff will not be removing locks until all employees are given instructions in so far as identifying his/her lockers, and then there will be a time-frame for each employee to label their lockers. It was brought to my attention earlier today that some employees were told that the locks would be cut off as soon as tonight. During our discussion you said that is not the intent of your staff. The intent is to notify all of the Maintenance Craft employees that management will be finding out which lockers belong to which employees, so that the idle ones can be available for employees that have none. There will be a period of time by which this will be accomplished.

If you have any questions or concerns feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Joe Paul".

President
