Mike Willard
Plant Manager
Seminole P&DC

Mike:

I was just informed of a situation that I wanted to report to you immediately. Apparently, over in the Quantum building there was an incident where a non-Postal employee made a verbal threat aimed at one of my members, and of course, one of your employees. The story I was told is that there was some sort of a mistake on their part (Quantum) and the USPS notified Quantum of the mistake. From what I was also told was that a few of the non-Postal employees over in that building were acting a bit aggressive towards one of our APWU members who works there, and wanted to know which employee from the Seminole installation reported their error. During this conversation it was reported that one of the non-Postal employees stated, "*He would shoot the Clerk who complained if he had the chance.*"

This may have been a hollow threat but it needs to be addressed to ensure that this type of behavior cannot and will not be tolerated. I was told that this incident was reported to the Manager of Transportation for the Seminole P&DC, Bryan Kos. Please look into this situation as soon as possible and let me know the outcome of your investigation.

Thank you in advance,

A handwritten signature in black ink that reads "Joe Paul".

President
