Re: Bid Posting #124077

It has been mutually agreed between Joe Paul, APWU, and Paul Fundenburg, USPS to remove 2 jobs that were posted on Posting Notice #124077, and place them both on the next Job Bid Posting. The reason behind this is that I secured a written Step 2 settlement on December 16, 2015 with language stating, "that Passport 'qualification' will be treated as 'other duties as assigned'. It may not be used on duty assignments as a qualification for determination of a successful bidder status..." The Passport language was improperly posted on those 2 duty assignments and I did not want employees to be bidding and/or not bidding on these assignments with misinformation.

I have been informed that those 2 bids are going to show up on the Bid Posting #124077 (this one) since it was too late to adjust, so once these bids go up on the subsequent posting you would need to bid them again if you are interested. I have been assured by Paul Fundenburg that he will post something to that effect but I wanted to send out something nonetheless.
